who we are

Bethany Children's Health Center is a private, non-profit hospital offering inpatient and outpatient services for children and is the only inpatient pediatric rehabilitation facility in Oklahoma.

Our multidisciplinary team works with patients and their families to maximize the patient's potential, and ensure the family has the training and resources needed for a smooth transition from hospital to home.

complex care unit

Our Complex Care unit provides specialized healthcare to children with complex medical needs. The patients served in this unit often have chronic health conditions and require ongoing medical care. We strive to provide care in the least restrictive environment possible, focusing on habilitative and/or rehabilitative care based on each patient's needs. The average length of stay for patients in the Complex Care unit is 24 months.

In Complex Care unit, you will have a bed in a large room with other patients. You will have your own bed-space, closet, drawers, and shelves for your things! You will have therapists, nurses, doctors, teachers, and other staff members who work with you every day.

You will have a bed space with your bed and toys. There will be other patients in the unit as well. The nurse's station is in the middle of the unit, so your nurse will be nearby!

This is what one of our classrooms in our Complex Care unit looks like. You will go to the classroom to learn new things all year-round.

In the gym, you will have some of your therapies like Physical and Occupational Therapy.

These are the hallways in our Complex Care unit that will take you to class, therapies, and more.

This is the Chapel in the Complex Care unit.

transitional care unit

The Transitional Care unit serves children who would benefit from an individualized plan of care for their unique medical and therapy needs. Each patient in the Transitional Care unit is evaluated by an interdisciplinary team and receives a comprehensive plan to address their specific functional and medical needs.

Our Transitional Care unit is located in our four-story tower. When you get here, you will meet a lot of new people. You will have therapists, nurses, doctors, teachers and other staff members who you will work with every day.

This is the nurse's station.
Our nurses are close by.

You will go to the gym for some of your therapies.
Our gyms have some amazing views of Bethany.

You will have your own room with a bed, a couch, and a TV. Families of patients in the Transitional Care unit are encouraged to room-in with their child and participate as a member of the care team.

You will also have your own bathroom.

This is the family room where patients and families can spend time. There are books, games, and toys available in the cabinet for you to play with!

This is the hallway in Transitional Care unit that will take you to the gym, family room, therapies and more.

pediatric medical rehabilitation unit (pmru)

Our CARF accredited Pediatric Medical Rehabilitation Unit uses a multidisciplinary team approach, working with both the family and the child to develop an individualized plan of care. The primary goal in the Pediatric Medical Rehabilitation Unit is to maximize the patient's physical and cognitive potential, and ensure the family has the training and resources needed for a smooth transition to home, the school system, and the community. Because the patient will require emotional support and stability and will be provided with intensive training and education during the rehabilitative process, we request that a parent or caregiver stay with the patient.

You will meet your Physical Therapist, Occupational Therapist, Speech Therapist, Child Life Specialist, Teacher, Music Therapist, and Recreational Therapist. You will also have a Doctor, Nurses, Respiratory Therapists, and more. During your therapies, you will work hard to reach your goals while having fun!

This is what your room will look like in the Pediatric Medical Rehabilitation Unit. You will have your own bed, a chair, a TV, and more!

You will also have your own bathroom.

You will have some of your therapies, like Occupational and Physical Therapy in the gym.

This is the classroom where you will work on schoolwork with the teacher.

This is the nurse's station. Our nurses are close by.

Timmy's Playroom has toys, video games, board games, and other fun activities for you to enjoy during your stay!

outpatient therapy + clinic

Bethany Children's Health Center offers several outpatient resources including primary general pediatric care, multiple specialty pediatric services, and comprehensive rehabilitative therapies.

Our Pediatric Clinic provides General Pediatrics and Specialty Pediatric Services for both children with and without complex medical needs.

In our Outpatient Therapy Clinic, our team consists of Occupational, Physical and Speech Therapists with the unique expertise to support children with and without complex medical needs.

community health

Bethany Children's Health Center is dedicated to improving health and preventing injuries of Oklahoma children. The Community Health programs we sustain and develop do just that by providing education and community resources. Healthy Schools OK, Safe Kids Oklahoma, and ATV Ride Safe Oklahoma are working to create a healthier and safer community for every Oklahoman. Our goal is to reach as many kids and parents as possible.

ATV Ride Safe Oklahoma

adaptive recreation + fine arts center + miracle stadium

Our Adaptive Recreation and Fine Arts Center features an Activities of Daily Living center, where children of differing abilities explore, experiment and practice all of life's important skills in a safe and realistic environment.

The Adaptive Recreation and Fine Arts Center enhances therapy by allowing children and their families to practice in specially designed simulated environments such as a house, a car and bus, a shop and a café. The state-of-the-art facility also includes an indoor recreation court, greenhouse, art and dance studios, and a performance center. It's also home to a specialized aquatic therapy pool.

Miracle Stadium field is designed for sports and other outdoor recreational activities. The facility provides a safe and productive environment for children of differing abilities to continue to experiment and explore life skills and enjoy healthy outdoor activities.

This multipurpose field enhances the potential of every child at Bethany Children's Health Center through healthy physical activity, sports, and community interaction.
