

pastoral + spiritual care

He heals the brokenhearted and bandages their wounds. Psalm 147:3

When a child is hospitalized, that child's world is changed forever. The hospitalization of a child can be a crisis for all who care for and about the child. Chaplains are available to provide a hopeful, spiritual presence for children and their families at one of the most vulnerable times in their lives.

Part of the work of healing may include addressing the spiritual issues that may surface during a medical crisis. For some, this means making use of their faith, prayer, scripture and sacraments. For others, it means struggling to feel the presence of God at a time when God can seem distant. For many, it means appreciating the opportunity for companionship and conversation that a chaplain can provide.

Bethany Children's Health Center chaplains provide emotional and spiritual support to promote wholeness and healing to patients, their families, and staff. Regardless of your

religious affiliation, if you are in need of support or someone to talk to, the pastoral care staff is available to help.

services include:

- Emotional and spiritual support to patients, members of their family, and staff
- Accepting listening presence
- Bedside visits
- Sacred play with age-appropriate stories
- Prayer and religious rituals
- Copies of scriptures and inspirational materials
- Chapel services and seasonal events
- Assistance to arrange visits from clergy of a specific religious community

chaplain services team

Our team of professional chaplains welcomes calls from patients, families, and staff.

Call 405.789.0711 x1008 or you can ask your medical staff to contact a chaplain on your behalf. We look forward to serving you.
